## Broken Bat!

### Online Baseball Game & Simulation

Broken Bat is an online strategic management game and computer baseball simulation that lets you be the owner/manager of a franchise. Managers acquire players, guide them through the minor leagues and then manage their major league club, competing against other managers. Each team competes against other teams in their division with the winners promoting up a pyramid of leagues and the losers dropping down. Additionally, there are spring training, playoff and cup games every season. Broken Bat baseball has players from over 50 countries and is entirely free.
